

Σ vs Centrality

Σ vs $\Delta\eta$ (symmetric bins)

Σ vs $\Delta\eta$ for $(-0.8, -0.6)$ bin fixed

Δ vs Centrality

$1 - \frac{\langle n_1 \rangle}{\langle n_2 \rangle}$ vs Centrality

Δ vs $\Delta\eta$ for $(-0.8,-0.6)$ bin fixed

b_{corr} vs Centrality

b_{corr} vs $\Delta\eta$ (symmetric bins)

b_{corr} vs $\Delta\eta$ for $(-0.8, -0.6)$ bin fixed

Covariance vs Centrality

Covariance vs $\Delta\eta$ (symmetric bins)

Covariance vs $\Delta\eta$ for $(-0.8, -0.6)$ bin fixed

Σ vs Δ Centrality for $\Delta\eta = 1.2$

Δ vs Δ Centrality for $\Delta\eta = 1.2$

b_{corr} vs $\Delta\text{Centrality}$ for $\Delta\eta = 1.2$
